

Equipment for air tightness and blowing fuel system pipelines with Air/Nitrogen

About:-

This equipment is meant for air tightness check with fuel in fuel compartments of Tank 1 and 2 by air/nitrogen on SU-30MKI aircraft.

Specifications:-

- Working Medium = Air/Nitrogen
- Maximum working pressure(kg/cm²) =150
- Transportation speed (km/hr) = 10
- LxWxH(mm) = 1000x600x1300
- Dry Weight(Kg) = 100
- Wheels = Caster
